# SPARE PARTS SERVICE

*Every part matters*

## | FAST AND RELIABLE SPARE PARTS

A single missing part can impact the **functionality of an entire medical device**. That's why we understand the **urgency behind every spare part requirement**. Our spare parts service is designed to **minimize downtime** and **maximize the lifespan** of your equipment.

We take pride in maintaining a **growing inventory** of high-quality spare parts readily available. Through **continuous refurbishment and salvaging of devices for spare parts**, we consistently **expand our stock**. Whether it's **electronic components, X-ray tubes, motors, sensors, flat-panel detectors, ultrasound probes, workstations, or monitors** – we have the right part for your device.

Furthermore, our extensive **network allows us to quickly source specific spare parts** for radiological equipment at advantageous terms.

We understand that **time is critical in healthcare**. Therefore, we not only offer an **extensive inventory** of essential spare parts but also ensure **fast global shipping**. Regardless of where your facility is located in the world, our logistics partners specialize in **delivering shipments with remarkable speed and short transit times**.

**YOU CAN RELY ON US**

**TO PROMPTLY AND EFFICIENTLY  
MAINTAIN YOUR EQUIPMENT WITH  
THE NECESSARY SPARE PARTS.**

# INSTALLATION & DEINSTALLATION

*of medical equipment*

## COMPREHENSIVE INSTALLATION AND DEINSTALLATION SERVICE

The commissioning of complex medical equipment and their proper decommissioning requires **specialized expertise**, and that's exactly what we provide. From mammography machines to sophisticated angiography systems, our **service covers a wide spectrum**. Our qualified team of **technicians carries out installations and deinstallations worldwide** with the utmost care and precision to ensure **optimal functionality and safety**. We work with professional equipment and **experienced personnel to manage the disassembly and transportation**.

Benefit from our expertise and let us **support you from project planning to the final implementation**.

| CUSTOMIZED PROJECT PLANNING  
| WORLDWIDE INSTALLATIONS  
| PROFESSIONAL DEINSTALLATIONS  
| QUICK RESPONSE TIMES

# TRANSPORTATION

*of medical equipment*

## | SAFE AND PRECISE TRANSPORTATION SOLUTIONS

Whether it's for **smaller medical instruments or large-volume equipment**, we offer **customized transportation services** that precisely meet your needs. We use our own vehicles to move smaller devices quickly and efficiently. For larger installations, we collaborate closely with **established logistics partners** and, when necessary, **leverage the expertise of local specialists** to ensure secure and **seamless loading and unloading**.

Our customers particularly **appreciate the precise scheduling and continuous communication** that we provide throughout the **entire transportation process**. With us, your equipment isn't just transported – **it's delivered to its destination with maximum care and attention**.

## WE MOVE MORE THAN JUST TECHNOLOGY

WE ENSURE YOUR SUCCESS THROUGH  
PRECISE TRANSPORTATION.

### | TRANSPORTATION

using our own vehicles for smaller devices

### | COLLABORATION

with renowned logistics partners for larger installations

with local service providers for special requirements

### | ONGOING UPDATES

and precise scheduling for the entire transportation process.

# PACKAGING AND STORAGE

*of medical equipment*

## CUSTOMIZED PACKAGING SOLUTIONS AND SECURE STORAGE

Danisik Medical understands the **importance of safe and professional packaging**, especially when it comes to transporting sensitive medical equipment. That's why we offer a **packaging service that is as flexible as our customers' needs**. From smaller devices to complex systems, we ensure **protective and transportation-appropriate packaging** that meets the specific requirements of each item.

With great care, we select the **appropriate packaging materials and methods** that align with **your budget and requirements**. Additionally, our **storage facility is at your disposal for storing your equipment**, whether it's **short-term or long-term**. We guarantee **secure storage** and, when needed, ensure **proper loading and unloading** as part of the onward transportation process.

| CUSTOMIZED PACKAGING SOLUTIONS  
| FLEXIBLE STORAGE OPTIONS  
| COMPETENT LOADING AND UNLOADING
